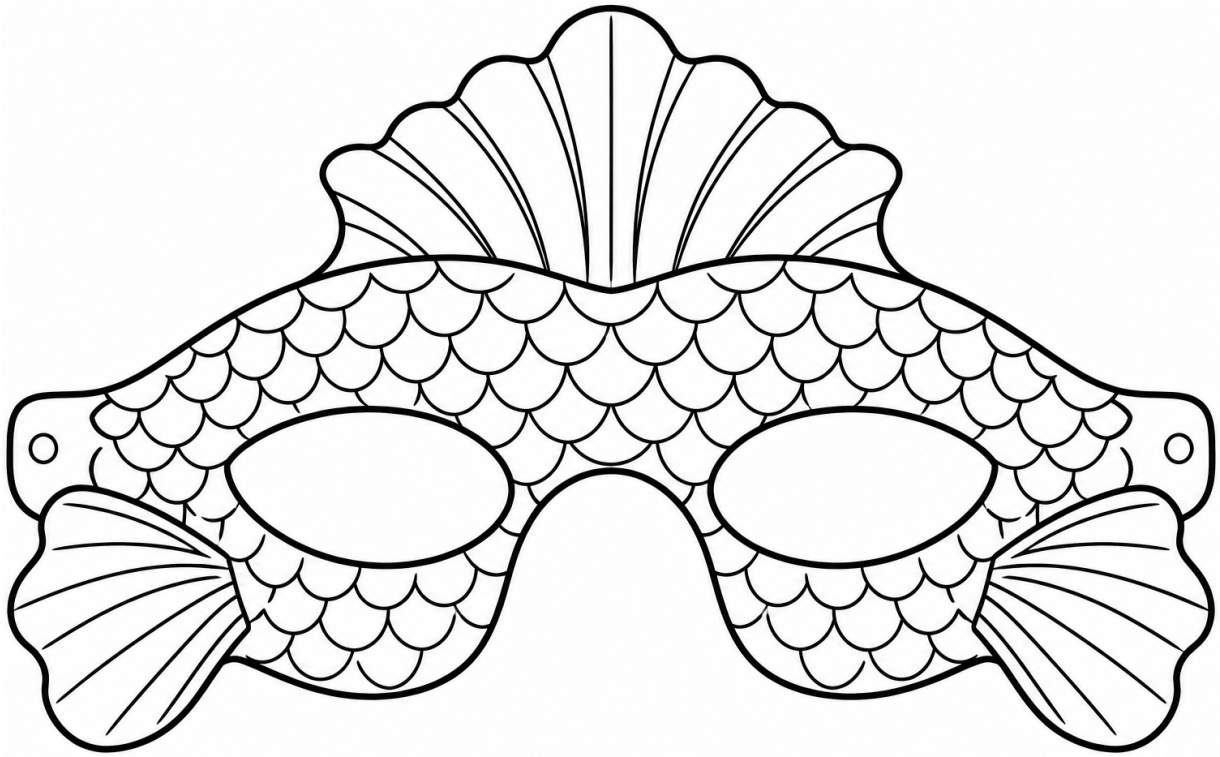
# Fan-fin fish

### Child trial size · width 160 mm

**Eye-opening centre distance: 63.9 mm. Print at 100%, no “Fit to page”.**



**Cut the outer contour. An adult cuts eye openings and fastening holes. Keep the nose and mouth open. Hold without elastic first: check forward and sideways vision.**

**Remove if edges touch the eyes or the mask presses. Reinforce the color version with card; color the outline version before cutting. Reinforce fastening points on the back.**

**50 mm — check with a ruler**

**Physical print and fitting checks are pending. Size does not guarantee a fit by age.**
