Seahorse in seagrass

Background — keep this sheet whole

Print at 100%, with the same scale on both pages.

Keep the background whole. Page two has the pieces and a small example.

Seahorse in seagrass

Pieces — cut with adult help

Example

Arrange the pieces without glue, then glue in layer order.

1. Curled tail behind the bottom of the body.
2. Body over the tail join.
3. Back fin on the right edge of the body.
4. Place the two little fish in open water on either side.
5. Put two shells on the bottom and three bubbles above.

Check: joins covered, eye visible.

Repair: move the body over the join before gluing.
