Astronomer cat

Pieces — cut the broad outer silhouette

Example — do not cut

Arrange without glue. Cut broad outer shapes; keep internal gaps whole.

1. Platform below; telescope behind on the right.
2. Cat on the platform, keeping its face visible.
3. Separate book and lantern in front of telescope.
4. Saturn, moon and three stars in the sky.

Check every piece and the visible face. Move foreground pieces aside if needed.
