Sleeping puppy

Background — keep whole

Both pages: print at 100%. Pieces and example are on page 2.

Sleeping puppy

Pieces — cut the outer edge

Example — not a piece

Color before cutting. Arrange every piece before gluing; keep the background whole.

1. Lay the cushion on the ground first.

2. Position the dog with its paws or body supported.

3. Place the remaining scenery around it; keep the face clear.

4. Glue rear layers first and foreground accents last.

Check all six pieces and keep the face clear. If paws float, lower the dog or slide its support underneath.
