Unicorn in the berry patch

Background — keep whole

Both pages: print at 100%. Pieces and example are on page 2.

Unicorn in the berry patch

Pieces — cut the outer edge

Example — not a piece

Color before cutting. Arrange every piece before gluing; keep the background whole.

1. Position the broad rear scenery first.

2. Place the unicorn with its hooves or body supported.

3. Arrange the other pieces; leave the face and horn visible.

4. Glue the rear layers first and foreground accents last.

Check all six pieces and keep the face clear. If hooves float, lower the unicorn or slide its support underneath.
