Harbor dog at the lighthouse

Pieces — cut the outer edge

Example — not a piece

Arrange every piece before gluing; keep the background whole.

1. Place the lighthouse on the far shore and the sailboat on the water.

2. Set the pier in the foreground; glue the dog with its paws on the deck.

3. Put the sun above the sea, away from the lighthouse.

4. Glue the lifebuoy in front. Its center stays white paper; do not cut the hole.

Check all six pieces and keep the face clear. If paws float, lower the dog or slide its support underneath.
