Round pufferfish

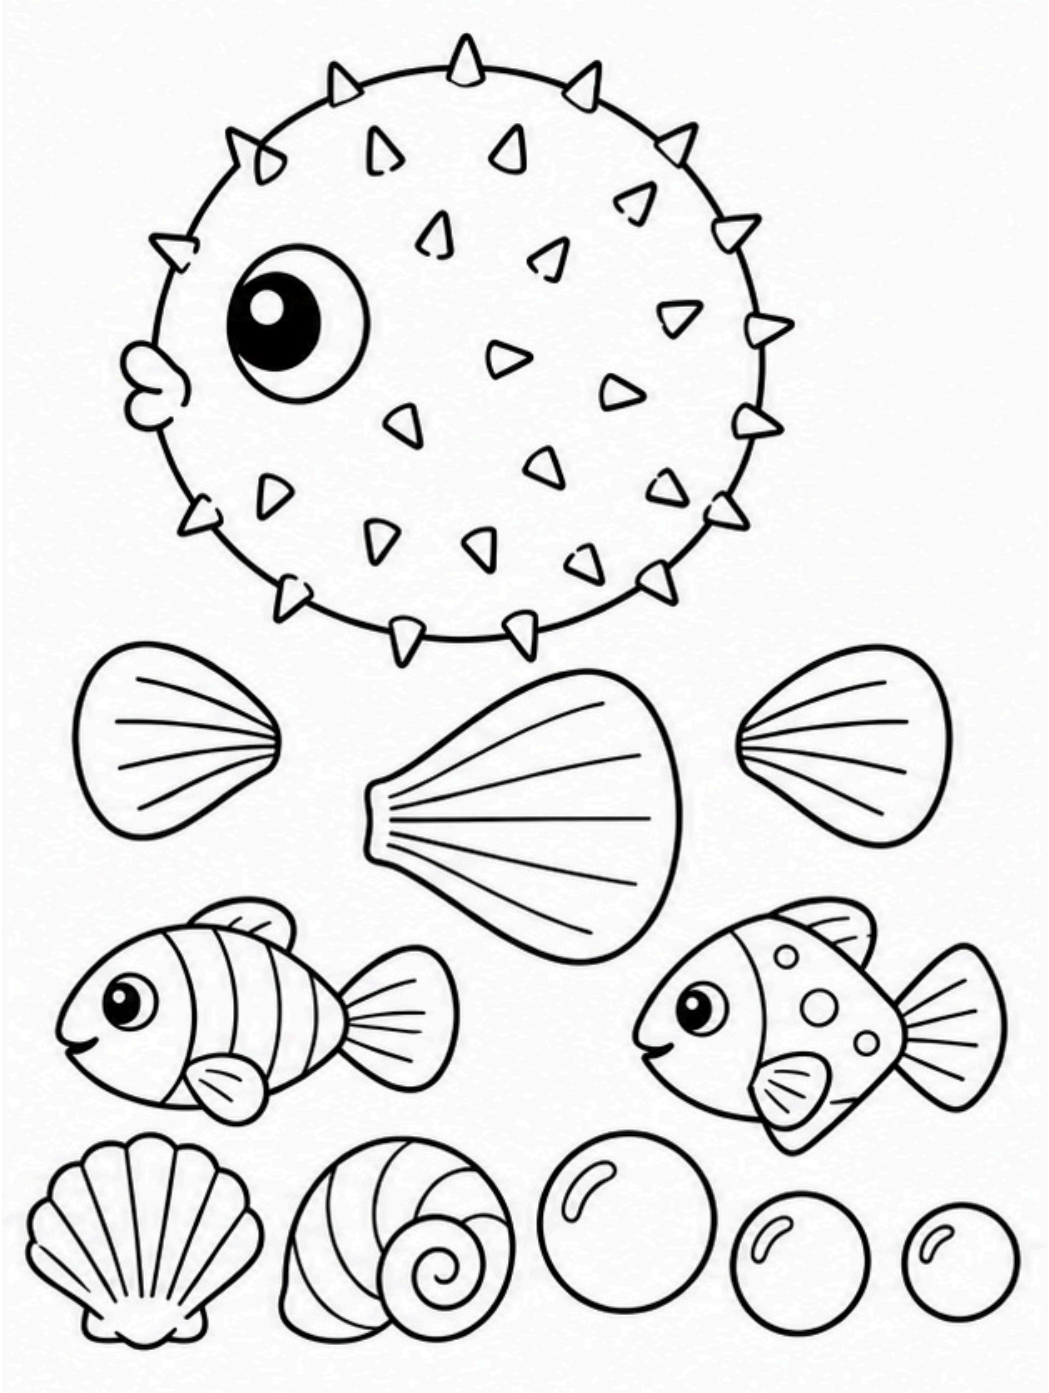

Background — keep this sheet whole

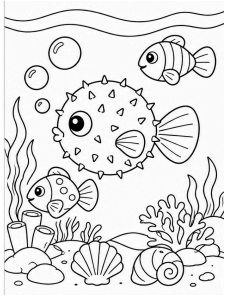

Print at 100%, with the same scale on both pages.
Keep the background whole. Page two has the pieces and a small example.

Round pufferfish

Pieces — cut with adult help

Example

Color before cutting. Arrange the pieces without glue, then glue in layer order.

1. Tail and one side fin behind the body.
2. Round body over the joins.
3. Second side fin on the body, below the eye.
4. Place the two little fish in open water on either side.
5. Put two shells on the bottom and three bubbles above.

Check: joins covered, eye visible.

Repair: move the body over the join before gluing.
