Puppy at the kennel

Pieces — cut the outer edge

Example — not a piece

Arrange every piece before gluing; keep the background whole.

1. **Place the kennel behind the puppy.**
2. **Position the dog with its paws or body supported.**
3. **Place the remaining scenery around it; keep the face clear.**
4. **Glue rear layers first and foreground accents last.**

Check all six pieces and keep the face clear. If paws float, lower the dog or slide its support underneath.
