

Practice: form and overlap

1. Two heads: move the axis and locate eye ticks again on the guide.

2. Two ovals: swap the foreground shape and erase the hidden edge.

Ticks on the guide? Rear edge stops at foreground?

Your drawing and a new application

3. Build a seated rabbit; check eyes and the paw-line ending.

4. New view: front, tilt or profile. Explain guide and overlap.

What changed in the supports? Which edge did you erase and why?
